Screener Confirmation and Consent

Namaskar my name is..... This Study is conducting by the Institute for Social and Environmental Research- Nepal to understand children's and adolescents' behavior, education, and relationships.

In the year {preload.w3year} and month {preload.w3month}, we interviewed members of some households in this community. I am trying to confirm if this is a household we interviewed. We might have talked to a Primary Caregiver named {preload.caregivername} as well as a child named {preload.child1name} who would be about {preload.child1age} years old.

Do you recognize any of these people?

For interviewer: If there is a child of that name, but the age is slightly different, please say "yes." Or, if there is a child of that age, but with a slightly different name, please say "yes."

CorrectHH Is this the correct household?

[Show if **CorrectHH** = 0 – No]

[INTERVIEWER: If the whole family has moved, we want to try to follow the original HH. End survey, but try to obtain their new location]

[Show if **CorrectHH** = 1 - Yes]

[INTERVIEWER: Read Screener Consent to Adult]

Family Migration Context and Socialization, and Children's Socio-emotional Development Study W4 in Nepal Consent Form for Interview

For the Interviewer:

You are required to read out loud the following statement to the respondent so s/he is able to understand it very well, and you are required to obtain their permission prior to starting interview.

Namaste! My name is _____. I work for the Institute for Social and Environmental Research-Nepal, located in Fulbari, Chitwan. Now, I am (visiting/contacting) you to obtain your consent to participate in a study entitled Family Migration Context and Socialization, and Children's Socio-emotional Development Study W4 in Nepal. This study seeks to understand the impact of family migration context on children's (aged 10-23) socio-psychological competence, expectations, and behaviors. The first interview will take 7 minutes and other interviews will take around 45 to 60 minutes. We will conduct this interview using one method either face to face or by telephone. Your participation is voluntary.

While there will not be any direct benefits to you, your participation in the study will give researchers a better understanding of how family migration affects child outcomes such as how children behave with family and friends both at home and in school. This information may inform policies and programs that will help people in the future. Your participation in this research is very important for the success of this study.

In this study we will ask questions about your child's interactions with family and friends, relationships with others, expectations, and achievements. You may choose not to answer any question for any reason. You may leave the study at any time. If you leave the study before it is finished, there will be no penalty to you.

We believe there are very few risks involved in participating in this study. We follow stringent practices to maintain the security of all data that could identify you, so we believe the risks to your privacy are very small. Your answers to the questions will be kept confidential.

(For Interviewer: Face to Face interview) We will conduct the interview in a private setting of your choice/ (For Interviewer: Telephone Interview) We will conduct the interview at a time when you can speak to us in private. Your answers will be used for research only and will be stored in secure data repositories for future research studies. If we share your information with other researchers, it will be de-identified, which means that it will not contain your name or other information that can directly identify you. Such future research studies may be similar to this study or completely different. We will not ask for your additional informed consent for these future studies. There is no limit on the length of time we will store your information.

Prof. Dr. Tracy Spinrad is an Associate Professor at Arizona State University and Principal Investigator of this study. Prof. Dr. Dirgha Jibi Ghimire is the Director of the Institute for Social and Environmental Research-Nepal (ISER-N), a Professor at the University of Michigan, and Co-Investigator of this study. If you want to know more about this research, Prof. Dr. Ghimire can be reached by phone at +977-056-591054.

In addition, if you have questions about your rights as a research participant, or wish to obtain information, ask questions or discuss any concerns about this study with someone other than the researcher(s), please contact the Institute for Social and Environmental Research-Nepal Institutional Review Board by phone at +977-056-592407 or by email at isernirb@outlook.com.

This study is funded by the National Institute of Child Health and Human Development. It is a joint collaboration between the Institute for Social and Environmental Research-Nepal (ISER-N) Fulbari, Chitwan. Arizona State University, Pennsylvania State University and the University of Michigan, USA.

Lastly, we are grateful for your valuable time and cooperation, and also look forward to talking with you again in the future. Please choose a private place to complete your interview.
